I designed PERN with flexibility in mind. The versatile swing arm gives you the choice of getting light where you need it and save space when you wish.

PERN is optimal for setting the mood above the dinner table or your lounge area. This is a functional design for compact living, and also a sculptural piece of lighting that truly makes a statement in the room.

BROOKLYN

Inspired by one of New York's most creative neighbourhoods, BROOKLYN makes a strong statement. Choose between opal or smoke coloured glass to match your home.

I have created the LARRY series with the intention of giving people the opportunity to create a luxury hotel feel at home. Its neat and stylish design fits both in your private home or in the public environment.

To create depth in a room, it's important to have many different light points. Therefore, I designed a whole series that can meet many of the needs of the home.
